

Personal Description

Waris Damkham is the CEO of PetMe, a company whose founder is enjoying his work experience by developing and designing a website. He expects his organization to enhance business IT services for customers who love pets. He got his degree in Computer Network from Mahidol University's Faculty of Information and Communication Technology. He has expertise in developing websites using CSS, HTML, and JavaScript. He started to be obsessed with designing websites when he was in his sophomore year, and he also used his website design skills to be an intern at Taiwan's A.I. internship. He has experience working in the website development field for five years. He aims to develop his company to become more prosperous in the future.
